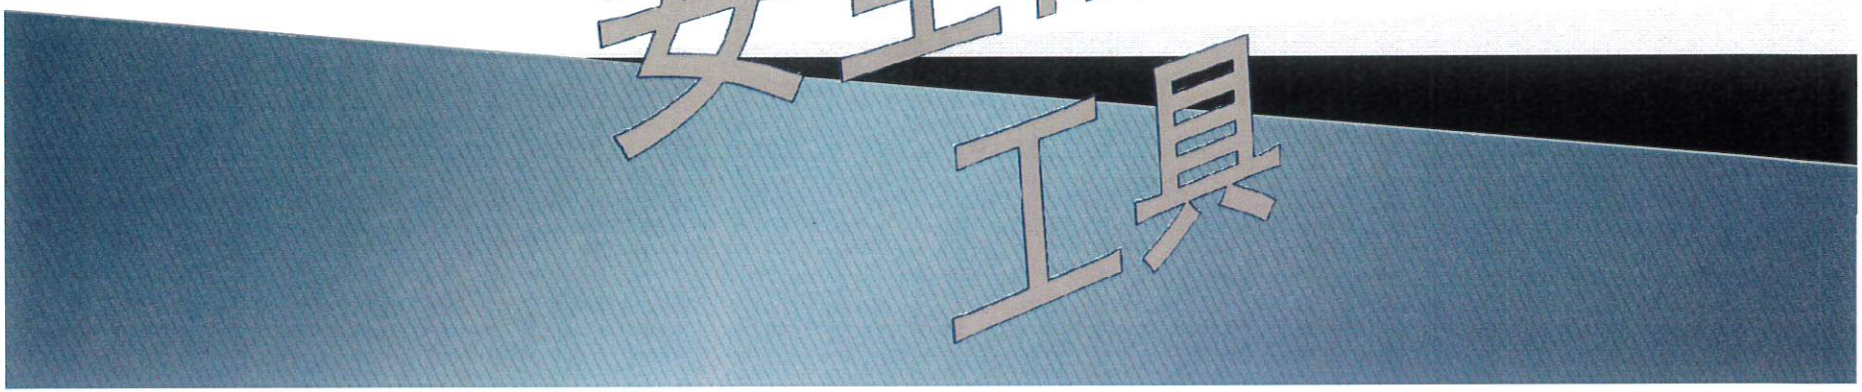
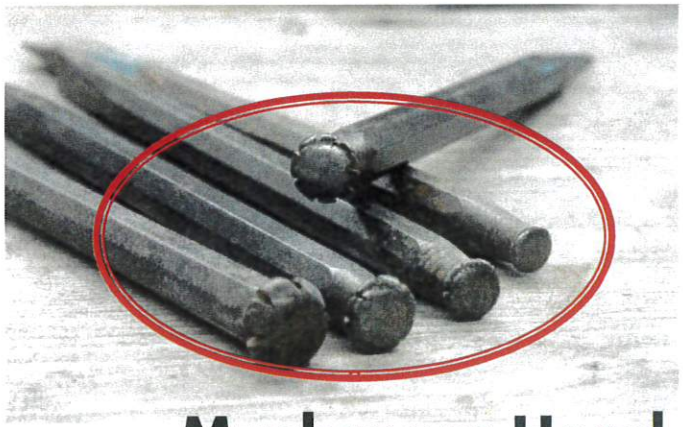
SAFE USE OF HAND-TOOLS

安全的使用工具



Do Not Use Tools With Patent Defects 不要使用有明显损坏的工具



Mushroom Head
蘑菇头

Make sure all damaged tools are replaced and not allowed to be used.

在使用前，把所有损坏的工具换掉

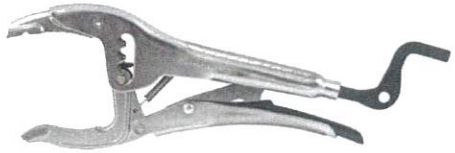
Secure Hand Tools 绑紧工具

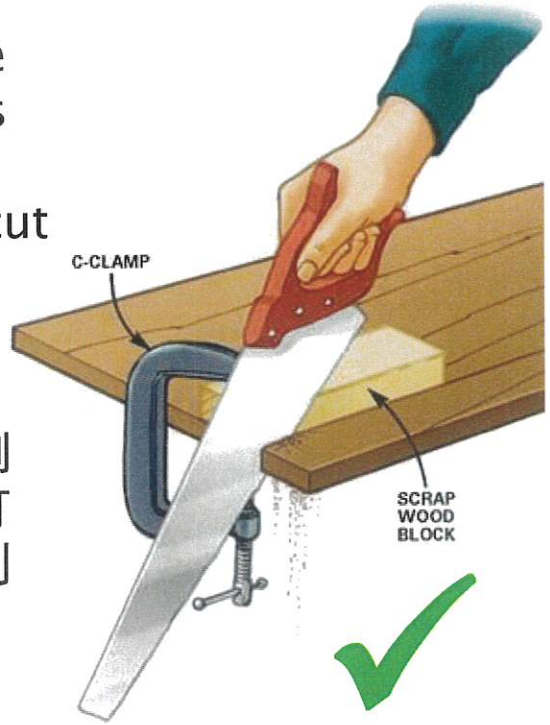
Hand Tools to be secured to hand when there is a risk of lost grip or fly off when force is exerted. 工具应该绑紧在手腕上，避免使用时滑落或用力过猛而飞出打人

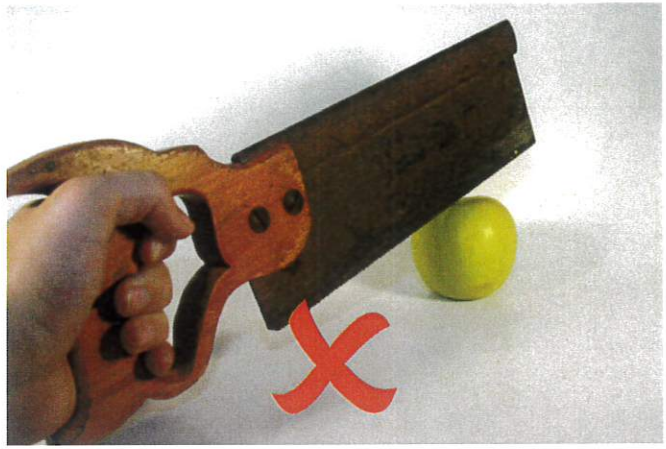
Use Tool to Hold Object Intended to be Worked-on. Don't Use Bare Hand
利用工具来稳固切割物，切勿用手握

When cutting materials, use of bare hand to hold material intended to be cut is dangerous, it can be out of control when the circular blade hit the "eye" of the timber, nails or any hard object. The repercussion force can cut the fingers.

应利用工具来稳固切割物，不要用手。因为，如果切割时打到木方的"眼"，铁钉或硬物等会反弹。因而切到自己手指的可能性极大。







Use The Right Tool For The Job
Maintain Hands Free From Oil and Grease 使用正确的工具。确保手是清洁的，没有油脂和油
